Library of Congress Number: 2018956779
Price: Paperback: \$22.95 (8.5x11)

Format(s): paperback, eBook
Pages: 72
Audience: Trade

Woven Celtic Knots

By Raymond K. Houston

Celtic knots are generally one or more interwoven cords or paths. Learn how to separate the paths, transfer them to fabric, and then weave them together.

This book provides interchangeable templates for Celtic knot bands, crosses, and boxes. It has a Library of Knots to explore for inspiration.

There are instructions to guide you through the process of weaving Celtic knots. Use the knots to embellish table linens, quilts, and clothing.

Raymond K. Houston is largely self-taught. He learned the operations of symmetry and developed a method for generating patchwork patterns of interlocking shapes known as tessellations, which he has demonstrated on TV and taught online. For more than 20 years, he has made quilts using only one patch...yet the quilts don't look alike. Raymond K. Houston has appeared in print and in person around the country, being featured in national quilt magazines and giving talks and workshops to quilt guilds from coast-to-coast. Raymond can be found online on Facebook, Instagram, and his websites, NachoGrandmasQuilts.com and TessellatioNation.com.
